

MessageSolution Receives Network Products Guide 2008 Product Innovation Award

MessageSolution Enterprise Email Archive 5.0 Selected Winner in Enterprise Email & File
Archiving Category

Milpitas, California – May 13, 2008 – MessageSolution, Inc., the leading provider in email and file archiving, electronic discovery, information retention, storage management, email compliance and litigation support, announced today that Network Products Guide, a Silicon Valley Communications publication and a world leading publication on technologies and solutions has named MessageSolution Enterprise Email Archive 5.0 a winner of the 2008 Product Innovation Award. This annually venerated award recognizes and honors vendors from all over the world with innovative and ground-breaking products that are bringing essential and incremental changes and are setting the bar higher for others in all areas of information technology.

MessageSolution Enterprise Email Archive software enables businesses to regain control over their email volumes. Enterprise Email Archive is equipped with next-generation indexing technology, and provides more than 75% storage volume reduction rates, policy-driven archiving rules for compliance, advanced search features for e-discovery, and an organized back end for disaster recovery.

MessageSolution Enterprise Email Archive stood out as a clear winner in the Enterprise Email & File Archiving Category for the product's cross-server support capabilities. MessageSolution is the first software provider in the market to support all three of the most popular enterprise-level email servers—Microsoft Exchange server, IBM Domino server, and Novell GroupWise server—along with many Linux-based email servers. “The goal of any product innovation must always remain a positive change, making or improving solutions better than before,” said Rake Narang, editor-in-chief, Network Products Guide. “Innovative products such as MessageSolution Enterprise Email Archive 5.0 are bringing improvements in ease of use and broadening support for IT environments.”

With this award, MessageSolution joins the ranks of many prestigious companies winning Product Innovation Awards this year, which include industry giants like Microsoft, Fujitsu, and Motorola.

“Network Products Guide’s recognition of Enterprise Email Archive further validates our solutions as best-in-class and ahead of the curve,” said MessageSolution’s CTO Jeff Liang. “Product innovation is key to our continued commitment to meeting our customers’ needs and providing them with solutions that are ground-breaking.”

About Network Products Guide Awards

Network Products Guide, published from Silicon Valley, is a leading provider of products, technologies and vendor-related research and analysis. You will discover a wealth of information in this guide including product innovations, roadmaps, industry directions, technology advancements and independent product evaluations that facilitate in making the most pertinent technology decisions impacting business and personal goals. The guide follows conscientious research methodologies developed and enhanced by industry experts. To learn more, visit www.networkproductsguide.com

About MessageSolution, Inc.

MessageSolution is the top provider of email, and file archiving for electronic discovery, compliance, and content storage management. MessageSolution's products enable organizations to mitigate risk, reduce costs and storage requirements, optimize server performance, and comply with industry and federal regulations. Based in Silicon Valley, California, MessageSolution maintains operations in North America, Europe, and Mainland China, along with distribution channels in Europe, South Africa, Australia, and Asia Pacific.

MessageSolution's award-winning products, Enterprise Email Archive and Enterprise File Archive, are cross-server onsite archiving software applications. Both products serve organizations across all industries, including finance, health care, education, manufacturing, government agencies and non-profit organizations worldwide. MessageSolution's products free IT administrators from daily maintenance and increase overall employee productivity. For more information, visit <http://www.messagesolution.com>.

MessageSolution is actively working with partners around the world to develop its worldwide business presence. Please visit our web site for more information on the Global Partner Network Program.

What Differentiates MessageSolution Products

Customers continually emphasize MessageSolution products' excellent overall performance and ease of use, with quick implementation and sub-second data retrieval, along with the intuitiveness of the interface and ease of maintenance. MessageSolution's intelligent back-end design significantly reduces installation requirements, backup time, and the need for technical support calls.

MessageSolution Enterprise Email Archive[™] deftly manages petabytes of data daily, a powerful enterprise archiving tool. Electronic discovery and litigation support are empowered by the archive's built-in search engine, which searches through millions of emails within seconds across

global locations and data centers. Users can access their archive through their email client, browser, or BlackBerry.

A high in-process compression rate combined with single instance message and attachment archiving slows archive storage growth. Enterprise Email Archive™ further reduces organizations' storage costs by using only 30% of the original mail server storage space for live content archiving. MessageSolution's products support all Latin-based languages, as well as all character-based languages, such as Japanese and Chinese.
