

MessageSolution Honored as Gold Winner in the 10th Annual 2015 Hot Companies and Best Products Award

The Information Technology Industry (ITI) Coveted Hot Companies and Best Products Award Winners have selected the Finalists from all over the world. MessageSolution was honored for its outstanding product performance in health care, education, financial, banking and insurance industries by Silicon Valley Network Products Guide and ITI in 10th Annual 2015 Hot Companies and Best Products Awards in San Francisco

Silicon Valley, CA – November 19, 2015 – MessageSolution announces that Silicon Valley Network Product Guide, the industry's leading technology research and advisory panel, has named MessageSolution Managed Service Provider Hosted Multi-Tenant Archiving-eDiscovery Platform a gold winner in multiple industries in the 10th Annual 2015 Hot Companies and Best Products Awards. These industry and peer recognitions from Network Products Guide are the world's premier information technology awards honoring achievements and recognitions in every facet of the IT industry.

Awards Honored to MessageSolution, Inc.

Gold Winner Categories:

Best IT Products and Services for Healthcare Industry

Best Products and Services for USA

Best Products and Services for Asia-Pacific Regions

MessageSolution also received the Silver Award of Best IT Products and Services for Education Industry, and the Bronze Award of Best IT Products and Services for Finance, Banking and Insurance.

“This esteemed industry and peer award recognition of MessageSolution’s Managed Service Provider Hosted Multi-tenant Archiving & eDiscovery Platform by Network Products Guide is IT industry’s greatest honor,” said MessageSolution Global Marketing Strategist Kevin McKinerny. “This further validates our position as a company poised to successfully enable service providers to deliver a high-performance content archiving and eDiscovery solution for SMEs and large-scale ISP and MSP partners.”

Among the 80+ companies that were nominated, MessageSolution ranked top as the gold winner among other industry leaders including Dell Inc., Cisco Systems Inc., Fujitsu of America, EMC, and Qualcomm.

An annual achievements and recognition awards program with active participation from a broad spectrum of industry voices, the coveted Hot Companies and Best Products recognition program encompasses the world’s best in organizational performance, products and services, hot technologies, executives and management teams, successful deployments, product and engineering management, customer satisfaction, and public relations in every area of information technology.

MessageSolution ISP/MSP Multi-Tenant Archiving & eDiscovery Platform

MessageSolution’s award-winning Managed Service Provider Hosted Multi-tenant Archiving Platform enables service providers to deliver a high-performance archiving and eDiscovery solutions for SMEs and large-scale clients. For MessageSolution archiving products are modular, email, file, and SharePoint archiving are easily configured into one

UI on a single server. MessageSolution provides cloud-enabled systems and integrated with BLOB-storage of all major cloud network providers including Microsoft Azure Cloud, IBM Cloud, and Amazon Cloud Networks, MessageSolution is the only content archiving provider that deploys in organizations' cloud accounts in Microsoft Azure Cloud Network to deliver software management and services to corporations worldwide. With a flexible solution that supports virtually all corporate email environments, the MessageSolution platform provides a secure, adaptable archiving solution, giving each client an independent archiving experience with little to no daily maintenance, and highly interactive data store with granular access controls. With on-line global support, MessageSolution works in tandem with service providers for coordinated marketing and client supported efforts. Service providers and hosting partners can also capitalize on savings of up to 70% off MSRP for optimized margins.

MessageSolution Multi-Tenant Archiving & eDiscovery Platform can either be deployed in the ISP/MSP partner's data center or in a cloud network to offer the flexibility of personalizing the archiving services and to minimize the content archiving and eDiscovery cost for the enterprise customers. ISP/MSP partner managed multi-tenancy archiving platform has the flexibility of designing services and fee structures, generating significantly higher margins than simply connecting to a hosted archiving service provider's archiving service program, and enabling more discounts for the enterprise customers and SME organizations for an affordable archiving and eDiscovery solution. Deployed on-site in MSPs' data centers and supporting a broad range of email server platforms including Exchange, Office 365, Domino, GroupWise and all major Linux-based email servers, MessageSolution Multi-Tenancy Archiving Platform supports all MSP partners' hosted email platforms and clients' in-house email servers.

MessageSolution works with financial, legal, education and healthcare sectors to help regulate compliance retention policies for multiple departments for users to quickly and conveniently access their personal archives. Healthcare sectors are able to rely on MessageSolution's content archiving and eDiscovery services to help ensure HIPAA, COBRA, ERISA compliance etc. With it organizations are able to granularly configure archive access permissions, data retention, and automated data redaction for full compliance coverage. Enterprise customers that have leveraged MessageSolution include Diamond Bank, First Federal Bank, and Elements Behavioral Health etc.

"In addition to the service provider platform, we are the only vendor today in the market that delivers cloud content archiving and eDiscovery solutions as well as enterprise on-premise solutions," stated Global Strategist Kevin McKinerny.
