

**MessageSolution Features Content Archiving and eDiscovery Solution to Replace MacAfee's MX Logic at the 2016 RSA Security Conference in San Francisco, California**

*Partnering with email and corporate file security vendors, MessageSolution introduces compliance archiving, legal discovery and storage management for email and network security space. MessageSolution delivers award-winning advanced information archiving and eDiscovery software solutions for email, SharePoint and file system archiving, legal discovery, and storage management.*

**San Francisco, CA (March 1, 2016)** MessageSolution, an industry technology leader in content archiving and eDiscovery, will be exhibiting at RSA 2016, showcasing its award-winning, information archiving and eDiscovery platform to replace MacAfee's discontinued MX Logic archiving solution.

Ranked as an "Emerging Player" for Enterprise Email Archiving in Info-Tech's Vendor Landscape, MessageSolution's enterprise content archiving solution introduces failsafe SLA for email security suite users to counter the need to purchase expensive email gateways and provides with an advanced and feature-rich alternative solution for compliance archiving and eDiscovery.

"When integrated with our system, we deliver an easier eDiscovery and content archiving solutions without the hassle of modifying security storage protocols for an advanced data archiving and restore experience," stated Kevin Mcinerny, Global Marketing Strategist at MessageSolution, Inc. "With performance based failsafe SLA, MessageSolution brings more efficient eDiscovery solutions with the dedicated archive system that implements industry leading search and restore functionalities integrated with the cloud BLOB storage. Compared to vendors in the market today, MessageSolution's Cloud Archive and eDiscovery Platform operates faster with two dedicated services that are more discoverable with high performance."

For SME and large enterprises, MessageSolution is rolling out a special promotion for customers looking to reconcile their implementation of MacAfee's email security and MX Logic email archiving systems. The MX Logic Replacement Promotion enables firms to continue archiving with a leading email archiving provider while not being in the market for a secure email gateway. The promotion provides extensive cost-savings by bundling free migration for MX Logic customers with MessageSolution's open-archive renewal policy in the first year. MessageSolution Service Provider Platform is a Multi-tenant Cloud Archive for MSPs to host and provide high performance email and content archiving for email retention with added failsafe SLA for all email platforms, including Microsoft Office 365.

MessageSolution's hands-free cloud archive and eDiscovery platforms are open to integrate with market security software. Other security software vendors provide fewer features and functionalities in their compliance archiving and eDiscovery offers. By partnering with service providers and security vendors, MessageSolution delivers an advanced, cost effective eDiscovery and content archiving experience with additional functions, ideal for service providers, SMEs, and enterprises. The MessageSolution Advanced eDiscovery Platform includes comprehensive features such as universal legal hold, case management, configurable 3<sup>rd</sup> party legal/auditor access, data redaction, etc. Data security in the Cloud is a major issue for organizations regarding safety and accessibility of archived data. To combat data security fears, MessageSolution offers SSL and AES encryption options. In addition, to maintain SSAE 16 Type II certification, all MessageSolution data centers are regularly audited for physical and procedural safeguards. The

MessageSolution Cloud Archive also leverages multi-tiered access permissions to granularly manage internal data access permissions.

“The open archive policy has the capability for security service providers a MX Logic replacement for customers with options of seamlessly deploying as a dedicated hands-off private cloud solution or an on-premise non-SQL enterprise archiving and eDiscovery solution,” said Kevin Mcinerny.

MessageSolution will be showcasing its enterprise and Cloud-based solutions for enterprise information archiving and eDiscovery in RSA 2016 at Moscone Center, San Francisco on February 29 - March 4 at booth #4609.
