

## MessageSolution Enterprise Archive & eDiscovery Platform vs. Exchange Personal Archive

<b>MessageSolution Enterprise Archive</b> Email, File Servers, SharePoint, Lync, OCS	<b>Exchange 2010/2013 Personal Archive</b> (or Microsoft Hosted Office 365) – Email only
<b>Compliance, Legal Electronic Discovery</b>	
<b>A Compliance Solution</b> - for Companies Long-Term Policy Tamper Proof, Highest Document Authenticity	<b>Not a Compliance Solution</b> – for User Archive Only Does not ensure the archived data is not deleted
<b>eDiscovery Suite of Functions Available</b> Case Management, Redaction, Legal Review, etc Customer Access to Journal with Chain of Custody Verification	<b>Limited eDiscovery Features</b> No Mobile Device & No SmartPhone Support No Customer Access to Journal, no Chain of Custody Verification
<b>Multi-Language &amp; File Capabilities</b>	
<b>Unicode Solution</b> Support to Search the Contents in All Languages	<b>Multi-language is not indexed &amp; not searchable</b> Not able to search through multi-language emails
<b>Search All Files and Platforms</b> Search of file servers & SharePoint of all versions	<b>Limited Search of File &amp; Platform</b> Not able to search file server; & SharePoint 2013 only
<b>Automated PST File Management</b> Auto search through the network and archive PST	<b>Manual PST management</b> Command line practice, not regular user is able to do
<b>Client Usability</b>	
<b>Offline Archiving &amp; Data Accessible</b> User can work on archived data when off internet	<b>No Offline Archiving</b> When user off internet, can't view archived data
<b>Ease of Use for End Users</b> No training required, transparent experiences	<b>User Training Required</b> As the separate set of folders causing confusion
<b>Supports all Outlook and OWA Versions</b> Flexible & no need to upgrade current versions	<b>Outlook &amp; OWA 2010 and Limited Version only</b> Costly Outlook upgrade & increase admin workload
<b>Support Mobile Devices &amp; Smartphones</b>	<b>No File Server Archiving or Discovery</b>
<b>Discovery &amp; Search Capabilities</b>	
<b>Search All Common Attachment Files</b> Also Search for over 400 file formats available	<b>Limited Search of File Format</b> Not able to search PDF files & common format
<b>Files in Public Folders/SharePoint/File Servers</b> Centralize & archive these files and searchable	<b>Public Folder Files are not Searchable</b> No Unified Search for File Servers & SharePoint all versions
<b>Storage Reduction Capability</b>	
<b>Reduce 80% of Exchange Storage Data Volume</b> Exchange Server & Email Box Management (HSM)	<b>Archiving to Accumulate Exchange Data Volume</b> No Storage Offloading, only Tiers
<b>Enterprise Information Archive (all-in-1)</b>	
<b>Enterprise Information Archiving (EIA) Capabilities</b> Archiving email, File Servers, SharePoint, Lync, OCS	<b>Email Archiving, and search in SharePoint 2013 Only</b> Force to Purchase SharePoint 2013 for Unified Search
<b>Cost-Effective Licensing</b>	
<b>MessageSolution Enterprise Email Archive</b> All versions available to archive for all users	<b>Exchange 2010 Client Access License (CAL)</b> Raised Cost; Standard CAL has no user archiving
