Network Products Guide names MessageSolution a Finalist of the 2011 Hot Companies and Best Products Awards

Information Technology Winners From All Over The World

Honored In Las Vegas on May 10, 2011

Milpitas, Ca — May 10, 2011 — MessageSolution Inc, announced today that Network Products Guide, industry's leading technology research and advisory guide, has named MessageSolution, a finalist of the 6th Annual 2011 Hot Companies and Best Products Awards in the New Product Category. These industry and peer awards from Network Products Guide are the world's premier information technology awards honoring achievements and recognitions in every facet of the IT industry. Winners from all over the world were honored in Las Vegas on Tuesday, May 10, 2011 during the 6th annual dinner and presentations.

MessageSolution, Inc. is the global technology leader in email, file systems, and SharePoint/Quickr archiving for electronic discovery, litigation support, compliance, storage management, and email server migrations.

An annual achievements and recognition awards program with active participation from a broad spectrum of industry voices, the coveted annual Hot Companies and Best Products recognition program encompasses the world's best in organizational performance, products and services, executives and management teams, successful deployments, product management and engineering, support and customer satisfaction, and public relations in every area of information technology.

"This esteemed industry and peer award recognition of MessageSolution by Network Products Guide is IT industry's greatest honor," said Jeff Liang, CTO.

About MessageSolution, Inc.

MessageSolution is the global technology leader in email, file, and SharePoint archiving software for electronic discovery, compliance, and content storage management. MessageSolution enables organizations to mitigate risk, reduce costs and storage requirements, optimize server performance, and comply with industry and federal regulations. Based in Silicon Valley, California, MessageSolution maintains operations in North America, Europe, and Mainland China, along with distribution channels in Europe, Africa, Australia, and Asia Pacific.

MessageSolution Enterprise Email Archive, Enterprise File Archive, and Enterprise SharePoint Archive are on-site and Software as a Service archiving applications serving organizations across all industries, including finance, health care, education, manufacturing, government agencies and non-profit organizations worldwide. MessageSolution software frees IT administrators from daily maintenance and increases overall employee productivity. For more information, visit http://www.messagesolution.com.

MessageSolution is actively working with partners around the world to expand its worldwide business presence. Please visit our web site for more information on the Global Partner Network Program.

What Differentiates MessageSolution Products

Customers continually emphasize MessageSolution products' excellent overall performance, support of all major email servers, and ease of use. MessageSolution provides sub-second data retrieval, an intuitive interface, and ease of deployment and maintenance. MessageSolution's intelligent back-end design significantly reduces installation requirements, backup time, and the need for technical support.

MessageSolution Enterprise Email Archive™ deftly manages petabytes of data daily, a powerful enterprise archiving solution. Electronic discovery and litigation support are empowered by the archive's built-in search engine, which searches through millions of emails within seconds across global locations and data centers. Users can access their archive through their email client, browser, or BlackBerry.

In the first quarter of 2009, MessageSolution became the first archiving vendor in the market to deliver a true 64-bit application that runs on a 64-bit OS machine.

MessageSolution delivers the industry's highest enterprise-level scalability and holds the industry record of archiving 22,000 users on one single MessageSolution archive server.

Competitive vendors archive on average 3,000-5,000 users on a single archive server, much less than MessageSolution archiving system's scalability and flexibility. A high in-process compression rate combined with single instance message and attachment archiving slows archive storage growth.

Enterprise Email Archive™ further reduces organizations' storage costs by using only 25-30% of the original mail server storage space for live content archiving. MessageSolution's products support all Latin-based languages, as well as all character-based languages, such as Japanese and Chinese.
